

MIRACLE MATERIAL MILLION POSSIBILITIES

versaTM
THE SMART PLANK

Welcome to the world of VERSA...

the miracle material with unlimited possibilities.

A superior, new generation material, Versa WPC planks are available in a range of colours, shapes and sizes, displaying the true elegance of natural wood. With a unique material composition, these planks are high strength, non-brittle and most importantly require no maintenance, by painting or regular surface coatings.

Combining unmatched product features of being UV and weather resistant, termite proof and anti-corrosive, Versa planks are suitable for multiple applications with a product lifetime of over 25 years. Versa is also easy to use, making it the perfect solution over conventional choices like natural wood, cement fiber boards, steel and aluminium among others.

Opening up a world of infinite options,
Versa is the smart plank for smart people.

Unique Features

Natural Wood Looks

Weather, UV &
Termite Resistant

Zero Maintenance
